MTU_ValueService

Maintenance Solutions

Less cost, less risk,
less worry – more success.

Power. Passion. Partnership.

MTU is one of the world's leading providers of diesel engine and propulsion systems.

Our engines and systems for mining applications have proven their value in millions of hours of operation. At MTU, value is measured in more than price. Reliability, longevity, durability and quality are all part of the value equation and MTU is the solution. The choice of an MTU engine and system is the choice of excellence, and the care of it should reflect that same high standard. **MTU_ValueService** is a complete solutions package of customized services designed to optimize the value of your investment. It reflects the premium quality that you can expect from MTU and our authorized distributors.

With our maintenance solutions **MTU Customized Care** and **MTU Extended Coverage**, we offer you professional maintenance and repair services according to your needs.

MTU Customized Care

MTU Customized Care is a range of maintenance and repair contracts (MARC) making it easy to plan maintenance throughout the lifecycle of your engines and ensure maximum availability.

The details, terms and intervals of each MTU Customized Care product are precisely tailored to match your individual needs.

MTU Customized Care – Preventive

MTU Customized Care – Preventive provides all scheduled preventive maintenance to safeguard the highest availability of your engines by replacing the respective components according to all proper replacement schedules. MTU utilizes the most current product enhancements and modification standards i.e. such technical improvements will be incorporated into the engines.

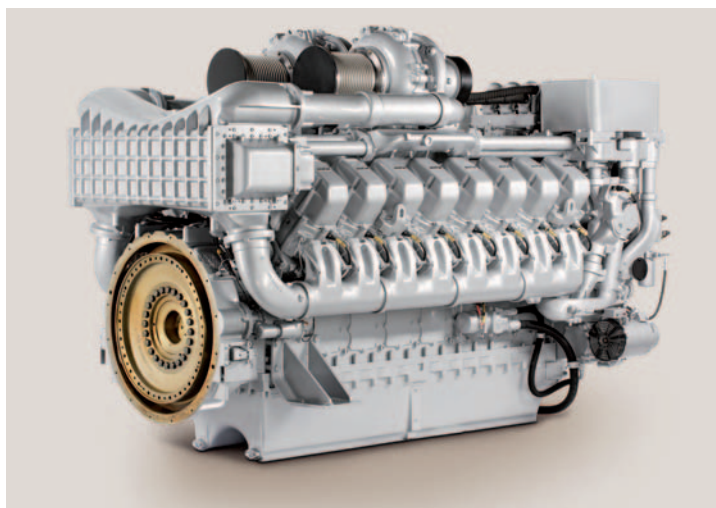

MTU Customized Care – All inclusive

MTU Customized Care – All inclusive includes not only preventive maintenance, but also corrective maintenance, covering the following:

- Troubleshooting and fault clearance
- Provision of required components
- Replacement of failed components

Benefits

- Maximum cost certainty
- Optimized fuel consumption and life cycle costs significantly improve the cost per ton
- Protection of your investment
- Simplified maintenance handling
- Professional repairs by MTU experts with all necessary knowhow
- Complete product range of service offerings and genuine new or remanufactured **MTU_ValueExchange** parts
- Convenient service available directly from the global MTU network
- 24/7 hotline and support

MTU Extended Coverage

With MTU Extended Coverage you can extend your standard warranty coverage of your MTU mining engines. MTU Extended Coverage for mining engines is an exclusive service tailored specifically to meet your needs and provides peace of mind after the expiration of the standard warranty.

MTU Extended Coverage includes:

- Corrective maintenance and repairs
- Troubleshooting and fault clearance
- Provision of required components
- Replacement of failed components

Benefits:

- Financial security against unexpected repairs
- Full transferability upon sale of the equipment
- Professional repairs by MTU experts with all necessary knowhow
- Convenient service available directly from the global network

MTU Customized Care and MTU Extended Coverage are available for new, **MTU_ValueExchange** remanufactured and MTU overhauled Series 2000 and Series 4000 engines for surface mining vehicles.

Contact your local MTU service center for more details on these **MTU_ValueCare** products and start building a comprehensive coverage plan for your MTU engines today.
